PROFESSIONAL EDIT

Extend the experience
with the Hollywood treatment

As well as Animation Team Building being a great experience, one of the real values and output of the day are the film the group makes. Taking the raw animation and giving it the Hollywood blockbuster treatment dramatically improves the film and extends the experience.

The key benefits of this optional extra are:

Extend your film, making it longer and more understandable.

Sound and music brings the animation to life.

Clean-up gives it the real Hollywood blockbuster treatment.

Title and credits give ownership and praise.

The new edit makes for an extension of the event with an additional premiere later on.

It's really simple; after the event we take away the film and within two weeks send it back for you to screen and share with the team. The film will be edited by a team of professionals working their magic by adding film titles, music, sound effects, visual effects as well as retiming to feel more polished.

The price of an edit begins at £300 + VAT depending on the amount of delegates and length of the session.

Don't worry, if you don't have this service, delegates are still able to watch their films on the big screen at the end of the event and will get to take the raw video files away with them.
