

ANIMATION TEAM BUILDING

OPTIONAL
EXTRA

PROFESSIONAL PUPPETS

Enjoy telling stories
with our Mini-Mes

A premium option for our Claymation event is to have some pre-made blank puppets which have a number of benefits. All of these Mini-Me characters are designed and created at our professional animation studio beforehand and then brought along on the day.

LARGE HEADS

Perfect to customize with eyes, hair, nose and other facial features

MITTEN STYLE HANDS

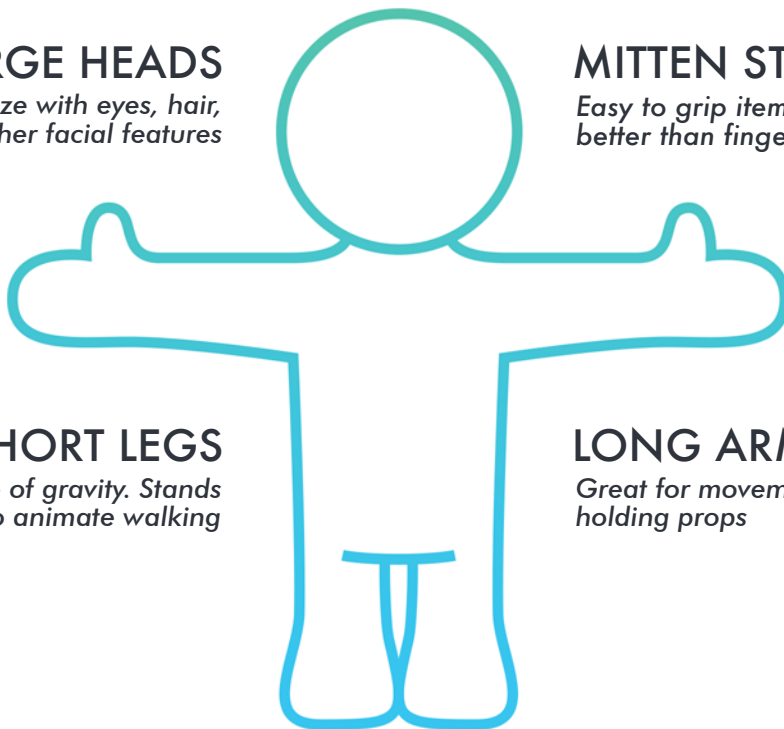

Easy to grip items and keep shape better than fingers

SHORT LEGS

For low centre of gravity. Stands well and easy to animate walking

LONG ARMS

Great for movement and holding props

The key benefits of this optional extra are:

Great for beginners and creatives, giving a level playing field.

They are built specifically for stop-motion animation and are tried and tested by our experts.

Adds a consistent look and style, so scenes and films feel from the same world. The design also gives a professional feel.

Allows teams to focus on the fun stuff like sets, props and adding clothes, a face and hair. And, of course, more time animating!

If you opt for this service, we still bring all the materials required to make your own sets, props and additional characters and each delegate will be given hands on guidance from our professional animation team.

The price of Mini-Me puppets is £250 + VAT per 10 required.
